EMTOP®
Making A Difference

EATL12001

DESCRIPTION & FEATURES

Square Drive: 12mm(1/2")
No-load speed:160RPM
Max.torque:68N.m(50Ft-Lb)
With Europe type connector, USA type connector, Nitto type connector and Italy type connector.
Front Exhaust
Capacity Bolt Size:1/2"(13mm)
Air Inlet (NPT) : 1/4"
Air Hose(ID): 3/8"
Packed by color box

1/2"

N.m
68N.m

USE

For assembling and disassembling bolts in confined spaces

SELLING POINTS

1. Industrial-grade high torque, easily installs and removes bolts
2. Lightweight and durable, suitable for installation and removal work in narrow spaces
3. Professional structure, greater torque, longer lifespan
4. Supports forward and reverse rotation, can be adjusted as needed, making work easier
5. Direct exhaust, ensures the wrench's explosive power
6. Plate-type switch, easy to press
7. Steel wire filter screen, prevents metal debris and particles from entering the gun

AIR RATCHET WRENCH
