Packed by label

USE

Chopping wood, firefighting and rescue, camping self-defense, etc.

SELLING POINTS

1. The axe head is forged from 45# high carbon steel, offering high hardness and impact resistance. The surface is treated with plastic spraying for a beautiful and durable finish. The double-wing design makes splitting objects easier and more efficient.
2. The axe handle is made of a durable and safe rubber-coated fiberglass, which is shockproof, comfortable to hold, and not easy to slip. The three-color design is attractive and stylish.
3. The connection uses high-quality epoxy resin glue, making it strong, durable, and not easy to come off.
