EMTOP®
Making A Difference

EMAT5541

DESCRIPTION & FEATURES

Without quick plug
Grinder cap: 6mm&3mm
Free speed:22000/min
Air inlet: 1/4"
Air hose(ID):3/8"
Average air consumption:4.5cfm(128.3l/min)
Operating air pressure: 6.3bar(90PSI)
Packed by color box

1/4"&1/8"

USE

Suitable for precision machining of various metals, surface grinding, chamfering, deburring, lapping, polishing, engraving, etc.

SELLING POINTS

1. Developed rubber sleeve, anti-vibration, heat insulation, ergonomic design
2. Developed trigger, smoother operation
3. High rotation speed, stepless speed regulation function, suitable for various working conditions
4. Equipped with 2 different collets, compatible with different specifications of grinding heads

AIR DIE GRINDER
