EMTOP®
Making A Difference

EMAY1A10

DESCRIPTION & FEATURES

1200W **1.6L/mm**

Voltage:220-240V~50/60Hz
Motor rating power:1200W
Max pressure:20.7MPa
Max (Fluid) delivery: 1600ml/min
7.5m black pipe
Weight: 11kg
Automatic oiling system
With 517 nozzle spray gun
Packed by carton box

USE

Suitable for wall spraying, ship paint spraying, latex paint spraying, color steel tile spraying, and waterproof spraying

SELLING POINTS

1. High spraying efficiency, more even coating, one person can spray 2000-3000m² per day
2. Good adhesion effect, and more paint-saving
3. Uses a unique patented automatic oiling device, no need to add lubricating oil daily, convenient to use
4. Due to the use of high-quality piston materials and the lubrication from the automatic oiling device, it has a longer lifespan
5. After long-term use, airless sprayers need regular replacement of seals; this product is easy to replace, while most products of the same level on the market are

AIRLESS PAINT SPRAYER
