Making A Difference

ESCT12221

DESCRIPTION & FEATURES

1/2" Dr.6pt.socket,22MM
Material:50BV30,Heat treatment,black nickel plated
Packed by plastic hanger

USE

The product can be used in auto repair shops, factory equipment maintenance, daily household maintenance, and bicycle repair. It is mainly used for removing and tightening bolts.

SELLING POINTS

1. The socket is forged from chrome vanadium steel, fully heat-treated, with high hardness, large torque, and strong impact resistance.
2. Mirror-finished black nickel plating is used, making it rust-resistant, corrosion-resistant, and long-lasting.
3. The concave arc hexagonal design allows nuts to be more easily embedded, making operation quick and effortless.
4. The socket surface is laser-engraved with specifications, making it resistant to scratching and fading.
