Making A Difference

ESCT12231

DESCRIPTION & FEATURES

1/2" Dr.6pt.socket,23MM
Material:50BV30,Heat treatment,black nickel plated
Packed by plastic hanger

USE

The product can be used in auto repair shops, factory equipment maintenance, daily household maintenance, and bicycle repair. It is mainly used for removing and tightening bolts.

SELLING POINTS

1. The socket is forged from chrome vanadium steel, fully heat-treated, with high hardness, large torque, and strong impact resistance;
2. Mirror-finished with black nickel plating, making it rust-resistant, corrosion-resistant, and long-lasting;
3. Concave arc-shaped hexagon design makes it easier for nuts to fit in, allowing for quick and effortless operation;
4. Laser-engraved specifications on the socket surface are not easily scratched or worn off.

1/2" HEXAGONAL SOCKET
