

# S30B-3011CA

S300 Advanced

**SAFETY LASER SCANNERS** 

### Ordering information

| Туре        | Part no. |
|-------------|----------|
| S30B-3011CA | 1056428  |

The system plug has to be ordered separately. For details, see "Accessories".

Other models and accessories → www.sick.com/S300\_Advanced

system plug not supplied with delivery

#### Detailed technical data

#### **Features**

| Protective field range         | 3 m                                |
|--------------------------------|------------------------------------|
| Warning field range            | 8 m (at 15 % reflectivity)         |
| Distance measuring range       | 30 m                               |
| Type of field set              | Triple field sets                  |
| Number of field sets           | 4                                  |
| Number of fields               | 12                                 |
| Number of monitoring cases     | 4                                  |
| Scanning angle                 | 270°                               |
| Resolution (can be configured) | 30 mm, 40 mm, 50 mm, 70 mm, 150 mm |
| Angular resolution             | 0.5°                               |
| Response time                  | 80 ms <sup>1)</sup>                |
| Protective field supplement    | 100 mm                             |
| Number of multiple samplings   | 2 16, configurable                 |
| Delay of automatic reset       | 2 s 60 s, configurable             |

 $<sup>^{1)}</sup>$  Depending on basic response time and multiple sampling.

#### Safety-related parameters

| Туре  | Type 3 (IEC 61496)                    |
|---|---------------------------------------|
| Safety integrity level  | SIL2 (IEC 61508)<br>SILCL2 (EN 62061) |
| Category  | Category 3 (EN ISO 13849)             |
| Performance level   | PL d (EN ISO 13849)                   |
| $\ensuremath{PFH_D}$ (mean probability of a dangerous failure per hour) | $8.0 \times 10^{-8} $ (EN ISO 13849)  |
| T <sub>M</sub> (mission time)   | 20 years (EN ISO 13849)               |

| Functions                              |   |
|--|---|
| Restart interlock                      | ✓ |
| External device monitoring (EDM)       | ✓ |
| Multiple sampling                      | ✓ |
| Monitoring case switching              | ✓ |
| Static protective field switching      | ✓ |
| Contour as a reference                 | ✓ |
| Integrated configuration memory        | ✓ |
| Measured data output                   | ✓ |
| Safe SICK device communication via EFI | ✓ |

At least one OSSD is in the OFF state.

 $<sup>^{1)}</sup>$  Freely programmable, e.g., external device monitoring input, reset input, contamination warning, reset required.

<sup>2)</sup> Availability depends on the configuration of the universal I/Os.

<sup>&</sup>lt;sup>3)</sup> In combination with an EFI device (Flexi Soft or EFI gateway) five static control inputs are available. Otherwise two.

 $<sup>^{\</sup>rm 4)}$  Freely programmable, e.g. warning field, contamination, reset required.

 $<sup>^{5)}</sup>$  For a suitable EFI-gateway see modules and gateways in the accessory section of connection systems.

#### Electrical data

| Protection class                        | III (EN 50178, EN 60950)                   |
|---|--|
| Supply voltage $V_s$                    | 24 V DC (16.8 V DC 30 V DC)                |
| Power consumption                       | $\leq$ 0.33 A $^{1)}$ $\leq$ 1.7 A $^{2)}$ |
| Outputs                                 |  |
| Output signal switching devices (OSSDs) | 2 x 250 mA                                 |
| Diagnostic outputs                      | 3 x 100 mA <sup>3)</sup>                   |

 $<sup>^{1)}\,\</sup>mathrm{At}\,24\,\,\mathrm{V}\,\mathrm{DC}$  without output load.

#### Mechanical data

| Dimensions (W x H x D)      | 102 mm x 152 mm x 106 mm               |
|-----------------------------|--|
| Weight                      | 1.2 kg                                 |
| Housing material            | Aluminum die cast                      |
| Housing color               | RAL 1021 (yellow)                      |
| Optics cover material       | Polycarbonate                          |
| Optics cover surface finish | Outside with scratch-resistant coating |

#### Ambient data

| Enclosure rating              | IP65 (EN 60529)                            |
|-------------------------------|--|
| Ambient operating temperature | -10 °C +50 °C                              |
| Storage temperature           | -25 °C +50 °C                              |
| Vibration resistance          | 5 g, 10 Hz 150 Hz (IEC 61496, IEC 61496-3) |
| Shock resistance              |  |
| Continuous shock              | 10 g, 16 ms (IEC 61496, IEC 61496-3)       |

#### Other information

| Type of light        | Pulsed laser diode                          |
|----------------------|---|
| Wave length          | 905 nm                                      |
| Detectable remission | 1.8 % > 1,000 %, reflectors                 |
| Laser class          | 1 (21 CFR 1040.10 and 1040.11, IEC 60825-1) |

S300 Advanced in connection with UE10-30S

Operating mode: With restart interlock and external device monitoring

Protective field switching with control input IN A

#### **Comments**

<sup>&</sup>lt;sup>1)</sup> Output circuits: These contacts must be incorporated into the control such that the dangerous state is brought to an end if the output circuit is open. For categories 4 and 3, they must be incorporated on two channels (x, y paths). Single-channel incorporation into the control (z path) is only possible with a single-channel control and taking the risk analysis into account.

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
